PERSONAL PROFILE

I am focused and driven games technology student with a keen interest in gameplay programming and would love the opportunity to explore my passions further. I have strong programming skills with 4 years experience in C# using Unity while using GitHub for version control and collaboration. Alongside this, I have my developed analytical, researching, and problem-solving skills throughout my time at University.

EDUCATION

MSc Commercial Games Development

University of the West of England (UWE Bristol)

10/2021 - 11/2022

BSc Creative Technology Studies (Games Technology)

University of the West of England (UWE Bristol)

09/2017 - 07/2021

PROJECTS

Super Trash Heroes

A side scrolling, co-op, beat-em up inspired by games like Streets of Rage and Double Dragon. It's a serious game with an eco-friendly message. Players fight through levels completing various encounters and defeating bosses. Originally created as part of the global game jam in 2015 for PlayWest, my team and I revived the project as part of our postgraduate studies.

- Upgraded the project to a newer version of Unity and refactored original codebase
- Designed and implemented flying level, coded new flight mechanics and boss fight
- Reworked the player input system for use with custom-built Foundry/PlayWest arcade machine for use with 4 co-op players

In Confidence

Undergraduate project where the whole cohort was divided into teams and acted as a studio to produce a game based on Among Us. Players had to complete various tasks to allow them to confide with other players so that they could figure out who was on what team/role.

- As gameplay lead for my team I worked with the producer to decide the elements we wanted to include in our level such as map design and task mechanics.
- I was responsible for the creation of the menu systems and worked with the networking team to connect up the menu actions to the networking services.
- Implemented the UI in for the pre-game lobby.

EMPLOYMENT HISTORY

Assistant Manager

Mitchells & Butlers PLC

06/2022 - Ongoing | Miller & Carter Steakhouse, Bristol

- Facilitate all aspects of the business including stock takes, ordering, maintenance, and ensuring compliance with health & safety policies and legislation

AWARDS

University Full Colours

Awarded for commitment and contributions to sport at UWE, consistently high level of performance, maintaining a professional attitude and have been an asset to UWE.

Develop: Brighton 2022

As one of the top 3 students from my class I was thrilled to have been rewarded with the opportunity to attend this amazing conference and to learn as much as I could from the various talks and from the developers I got to meet while there. I even ended up on stage for the Games About Games!

VOLUNTEERING

Student Council

The Students' Union at UWE

I was elected to the student council to represent the voices of all the sports clubs at UWE. It was my responsibility to hold the SU Presidents to account and to help create new policy and discuss matters affecting the student experience.

President

UWE Bullets American Football

- Oversaw the running of the club providing support, advice and guidance to the other committee members
- Ensuring that all club codes of conduct and risk assessments are adhered to
- Organising fixtures with opposition and officials
- Maintaining effective liaison with the VP Sports & Health and the Students' Union Opportunities Team
- Contributed to the success of the club and founded the first 2nd team at university level in the country

Participation & Equality Officer

UWE Bullets American Football

- Organised Freshers' Fair and Trial Sessions
- Main point of contact for new members
- Ensured events included a diverse range of members
- Coordinated game day with other clubs and spectators
- Support members and make the sport as accessible as possible (disability, financial constraints)
